

MOOP (noun)
 Matter Out Of Place;
 especially as it applies to
 Black Rock City and it's Citizens.
Can be anything: cigarette butts,
 bottle caps, glowsticks, fireworks,
 but is often disguised as DEBRIS
 (i.e. broken bits of Wood, Plastic,
 Metal, Glass, and Plants)
Can also be a condition:
 Burn Scars, Grey Water, Dunes...
Moop (verb)
 To pick up Matter Out Of Place.

20% RED

HIGH IMPACT TRACE

Also known as Hot Spots, the impact trace conditions embedded into the playa in your vicinity were heavily problematic and spread out over a vast area. Get your Restoration Team and Tools together. Set your boundaries, do your Line Sweep, Identify the Issues, Restore...Go Green!

40% YELLOW

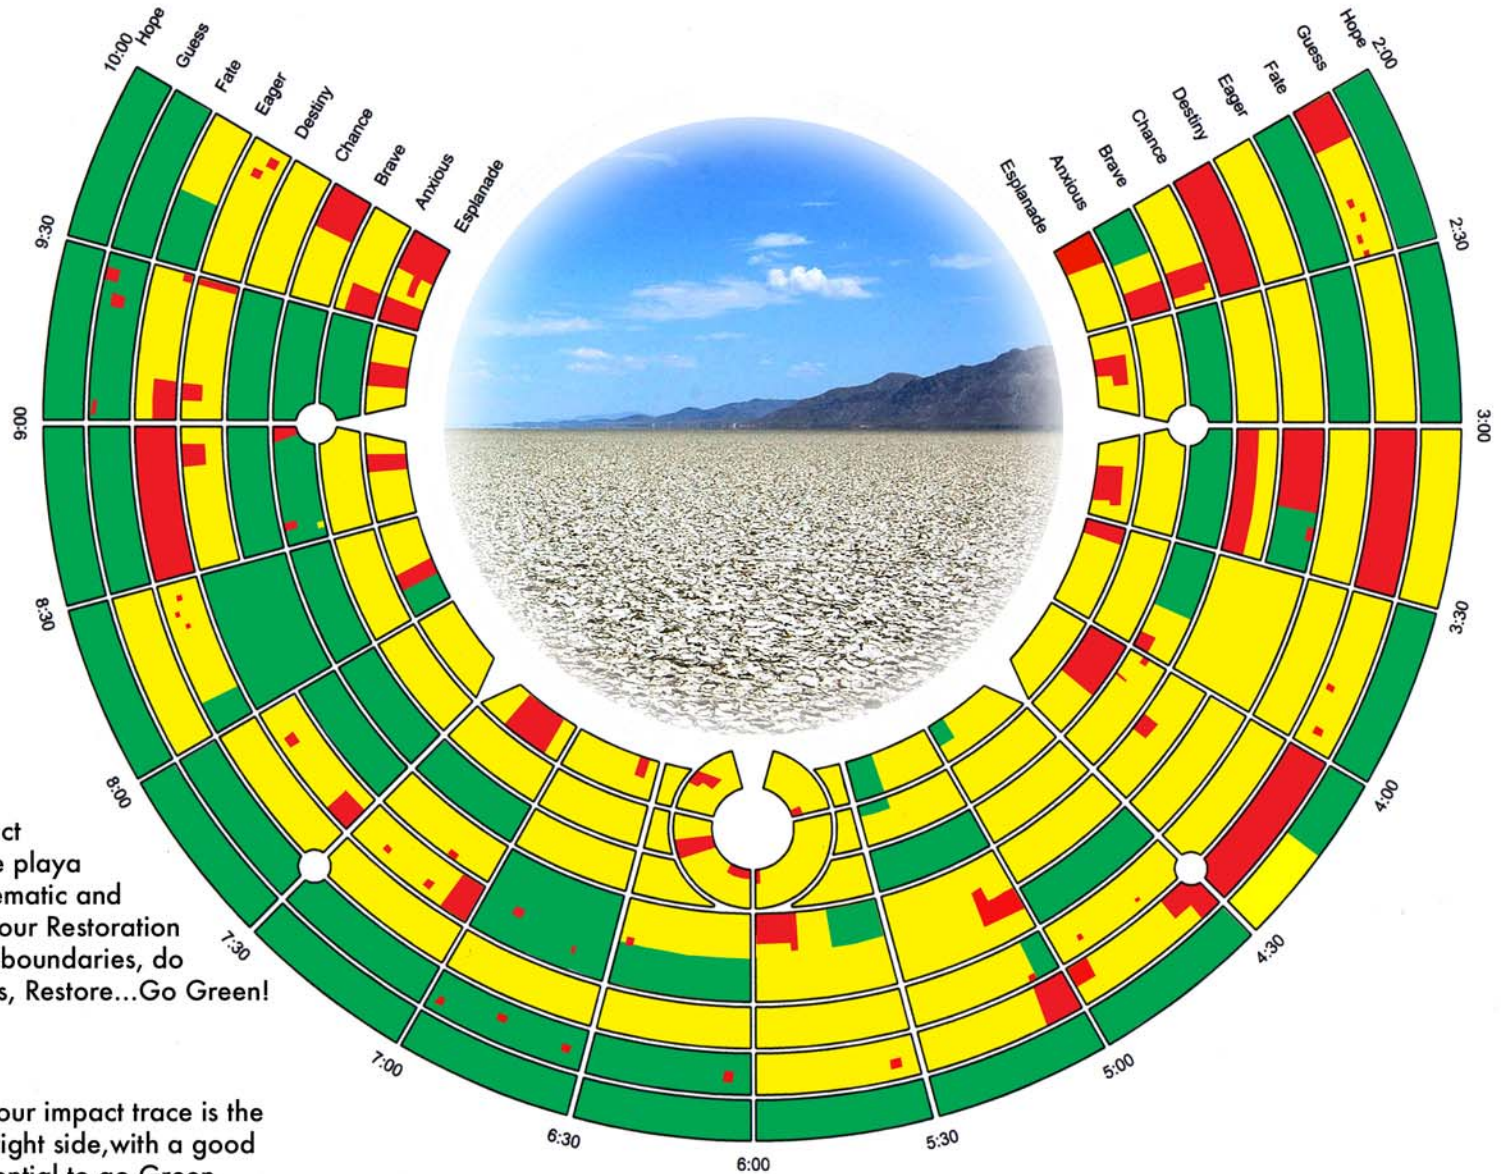

MODERATE IMPACT TRACE

While neither the best nor worst, your impact trace is the Ever-Changing Average. On the bright side, with a good strategy your camp has strong potential to go Green. However, SLACK could easily put your camp into the RED.

40% GREEN

LOW TO NO IMPACT TRACE

Green as in GO! GO! GO! You get an A+ for awesome. Your camping area LEFT NO TRACE. Keep up the good work. You are the Leaders of No Trace and we need you to lead the way to 2007!!!. BLACK ROCK CITY SALUTES YOU.
